HKIBIM AWARD 2025 **BIM Beyond Boundaries**

30 January 2026

Cr Prof Daniel CHAN
President
Hong Kong Institute of Project Management

Dear Cr Prof CHAN,

HKIBIM Award 2025 Award Presentation Ceremony-cum-Dinner Banquet **Guest Invitation**

On behalf of The Hong Kong Institute of Building Information Modelling (HKIBIM), we are pleased to cordially invite you to attend the HKIBIM Award 2025 Award Presentation Ceremony-cum-Dinner Banquet as a **distinguished guest**.

Since its establishment in 2018, the **HKIBIM Award** has been held biennially to recognise excellence in Building Information Modelling (BIM). It celebrates outstanding achievements in innovation, collaboration, and global impact across the architecture, engineering, and construction (AEC) industry.

This year's theme, "**BIM Beyond Boundaries**", celebrates how Building Information Modelling transcends boundaries to transform global construction. The theme highlights Hong Kong's role as both Asia's world city and a BIM innovation hub, where international talents converge with local expertise through initiatives. By breaking down geographical and technical barriers, we foster cross-border collaboration and shared digital innovation across the Greater Bay Area, ultimately creating smarter, more connected built environments worldwide while positioning Hong Kong as the vital link between Mainland and international BIM practices.

With over 70 submissions this year, the ceremony provides an exceptional platform for local and international organisations to demonstrate and showcase their projects that involve BIM applications to deliver high-quality outcomes. We anticipate more than 400 guests from government departments, industry leaders and stakeholders to join the event. Your presence will add prestige to the event and offer a valuable platform to connect with industry peers, share ideas on BIM development, and witness the achievements of this year's awardees.
